

Staffing Standards for Sheriffs' Offices

(updated 12/19/12)

These staffing standards, recommended by the Virginia Sheriff's Association and approved by the Compensation Board, may not reflect all duties performed by the Sheriff. Positions needed for each office are based only upon the duties and workload measures identified specifically in the Staffing Standards. Many Sheriffs perform additional duties at their discretion or provide other services not required by state law. The number of Compensation Board-funded positions due in a specific Sheriff's office is based upon duties required by law to be performed by the Sheriff, or duties which nearly all Sheriffs perform.

In determining the allocation of additional positions, the Compensation Board considers the following criteria:

1. The position (or positions) must be requested by the Sheriff as part of the Compensation Board's annual budget process.
2. The position requested must perform only statutorily prescribed duties for the Sheriff's office.
3. The Sheriff's office must have a personal computer, be connected to the city/county system, or have such systems scheduled for installation within 12 months.
4. Funds and positions must be appropriated by the General Assembly.
5. The Compensation Board will use the staffing methodology and workload criteria developed by the Virginia Sheriff's Association (VSA) to determine the appropriate level of Compensation Board-funded staff support for each office requesting additional positions.
6. The Compensation Board shall determine the number of additional positions to be allocated to any one office based upon criteria 1-5, inclusive, and additional positions shall be allocated in the order of percentage of need, where offices with the highest percentage of need will receive positions first. The percentage of need is determined by calculating the percentage that the number of additional positions needed is to the total number of current positions.
7. The Compensation Board uses U.S. Census data or data provided by the Weldon Cooper Center for Public Service, University of Virginia.

The methodology used to determine appropriate staffing levels in each Sheriff's office was developed by the VSA and adopted by the Compensation Board.

Staffing Methodology

Law Enforcement

One deputy per 1500 population, as set out in §15.2-1609.1, Code of Virginia. A minimum of five (5) deputies is allocated for any county where the sheriff provides the majority of law enforcement services, as set out in Chapter 464, Virginia Acts of Assembly.

Court Services

Process Service

The minimum number of deputies fixed for service of process is based upon a 3 year average of papers received, with service of such papers completed as follows:

- Six (6) papers served per hour in all cities;
- Five (5) paper served per hour in counties with a population of 100,000 and above;
- Three (3) papers served per hour in counties with a population of 70,000 to 99,999;
- Two (2) papers served per hour in counties with a population of 10,000 to 70,000;
- One and one-half (1-1/2) papers served per hour in counties with less than 10,000 population;
- 3 hours per in-jurisdiction mental health transport;
- 4.5 hours per out-of-jurisdiction mental health transport; and
- 1,750 hours per year of available time per deputy.

Courtroom & Courthouse Security

The number of deputies fixed for courtroom and courthouse security is based upon no more than:

- Two (2) deputies in circuit court; and
- One (1) deputy in general district court; and
- One (1) deputy in juvenile and domestic relations court; and
- Each court day assumes an average eight (8) hour court day, and 1,750 hours per year of available time per deputy.

Additional VSA Approved Standard (levels beyond Compensation Board standard are not proposed for state-funding):

Courtroom & Courthouse Security

To the number of deputies fixed for courtroom and courthouse security based upon the above Compensation Board standard, add:

- Two (2) deputies for courthouse (entrance) security per courthouse and one (1) deputy per lockup.

Security standards apply to criminal cases at eight (8) hours per day per deputy when court is in session, and 1,750 hours per year of available time per deputy.
