Staffing Standards

These staffing standards, recommended by the Virginia Sheriff's Association and approved by the Compensation Board, may not reflect all duties performed by the Sheriff. Positions needed for each office are based only upon the duties and workload measures identified specifically in the Staffing Standards. Many Sheriffs perform additional duties at their discretion or provide other services not required by state law. The number of Compensation Board-funded positions due in a specific Sheriff's office is based upon duties required by law to be performed by the Sheriff, or duties which nearly all Sheriffs perform.

In determining the allocation of additional positions, the Compensation Board considers the following criteria:

1. The position (or positions) must be requested by the Sheriff as part of the Compensation Board's annual budget process.
2. The position requested must perform only statutorily prescribed duties for the Sheriff's office.
3. The Sheriff's office must have a personal computer, be connected to the city/county system, or have such systems scheduled for installation within 12 months.
4. Funds and positions must be appropriated by the General Assembly.
5. The Compensation Board will use the staffing methodology and workload criteria developed by the Virginia Sheriff's Association (VSA) to determine the appropriate level of Compensation Board-funded staff support for each office requesting additional positions.
6. The Compensation Board shall determine the number of additional positions to be allocated to any one office based upon criteria 1-5, inclusive, and additional positions shall be allocated in the order of percentage of need, where offices with the highest percentage of need will receive positions first. The percentage of need is determined by calculating the percentage that the number of additional positions needed is to the total number of current positions.

The Compensation Board uses U.S. Census data found at <http://www.census.gov/> or data provided by the Weldon Cooper Center for Public Service, University of Virginia, located at <http://www.coopercenter.org/demographics/>.

The methodology used to determine appropriate staffing levels in each Sheriff's office was developed by the VSA and adopted by the Compensation Board.

Staffing Standards, continue

Law Enforcement. One deputy per 1500 population, as set out in § 15.2-1609.1, Code of Virginia. A minimum of five (5) deputies is allocated for any county where the sheriff provides the majority of law enforcement services, as set out in the Virginia Acts of Assembly (2010 Appropriation Act).

Court Services. The minimum number of deputies fixed for service of process is based upon a three (3) year average of papers **received**, to be served as follows:

- Six (6) papers served per hour in all cities and in counties with a population of 100,000 and above.
- ***Five (5) papers served per hour in counties with a population of 100,000 and above.**
- Three (3) papers served per hour in counties with a population of 70,000 to 99,999.
- Two (2) papers served per hour in counties with less than 70,000 population and 1,750 hours per year of available time per deputy.
- ***One (1) and ½ papers served per hour in counties with less than 10,000 population.**
- Three (3) hours per in jurisdiction mental health transport; and
- Four (4) and ½ hours per out of jurisdiction mental health transport.
- 1,750 hours per year of available time per deputy.

Additional **jail deputies** for new jail construction or expanded jail capacity are allocated based on the Department of Corrections (DOC) staffing study recommendation, and a maximum ratio of one (1) jail deputy for every three beds of operating capacity (or the request of the Sheriff, whichever is less). The DOC determines operational capacity. No additional jail deputies shall be provided to a local jail in which staffing exceeds the ratio of 1:3 unless the jail is deemed overcrowded. Overcrowding, for staffing purposes only, is defined as when the annual average daily population exceeds the operational capacity. In a jail experiencing overcrowding, the Compensation Board, upon the request of the Sheriff, may allocate one (1) additional jail deputy for every five average daily prisoners above operational capacity.

***Changes effective 12/2012**
